www.colourspectrums.com

During the current Covid-19 pandemic, ColourSpectrums in person facilitator certification is on hold. The good news is we are offering our full certification as a PowerPoint presentation that is fully narrated by our founding director, Rob Chubb. This has been training option 2 (\$1076.40) and it is now temporarily available for **\$834.75**. This training also includes full telephone/zoom support. When we can safely gather you are encouraged to attend in-person training at no additional charge.

This **ColourSpectrums** audio visual training program will certify you to present **ColourSpectrums** to groups and individuals.

ColourSpectrums is a personality styles human development model presented in an entertaining, interactive workshop format. Carl Jung's primary psychological colours represent 4 classic areas of personality development and functioning:

Blue Emotional intelligence
Green Intellectual intelligence
Red Physical intelligence
Yellow Organizational intelligence

*You are more intelligent
than you "think" !*

ColourSpectrums is a dynamic educational experience that provides insights (ah-ha! learning) and entertainment (ha-ha! learning) in an exciting process of self-discovery. Participants sort the 4 colourfully illustrated attribute cards to reveal their **ColourSpectrums**. All **ColourSpectrums** are particular combinations of strengths and challenges that are unique to each individual.

This audio visual training program will teach you how to present workshops in a positive educational atmosphere of fun and discovery that includes: individual reflection, paired discussions, group discussions, card sorting, word pairing, facilitator input and small group activities. You will learn how to empower participants as they actively learn, explore, reveal and celebrate their individual priorities, delights and talents while genuinely valuing the priorities, delights and talents of others. Based solidly on the works and research of Carl Jung, **ColourSpectrums** creates an enchanting user-friendly language that naturally enhances self-esteem and team-esteem while supporting diversity, pride and mutual respect.
