

Facilitator Certification May/June 2024 Sherwood Park & Saskatoon

This training program will certify you to facilitate *ColourSpectrums* workshops. *ColourSpectrums* is a personality styles team building/communications/career development model presented to groups in an entertaining, interactive workshop format. This training is based on Rob Chubb's *ColourSpectrums* Personality Styles Books 1, 2 & 3 that defines four primary psychological colours to represent the 4 dimensions of personality development:

- Blue** Emotional intelligence
- Green** Intellectual intelligence
- Red** Physical intelligence
- Yellow** Organizational intelligence

You are more intelligent than you "think" !

ColourSpectrums is a dynamic educational experience that provides insights (ah-ha! learning) and entertainment (ha-ha! learning) in an exciting process of self-discovery. Participants sort the 4 colourfully illustrated attribute cards to reveal their colour spectrums. All colour spectrums are particular combinations of strengths and challenges unique to each individual.

This certification training will teach you how to present workshops in a positive educational atmosphere of fun and discovery that includes: individual reflection, paired discussions, group discussions, card sorting, word pairing, facilitator input and small group activities. You will learn how to empower participants as they actively explore, discover, reveal and celebrate their individual priorities, delights and talents while genuinely valuing the priorities, delights and talents of others. *ColourSpectrums* creates an enchanting user-friendly language that naturally enhances self-esteem and team-esteem while supporting diversity, pride and mutual respect.
